G. S. CRANE Manager

UTAH NEWSPAPERMAN

A HONOLULU VISITOR

Frank I. Seifert, general manager of the Salt Lake Tribune, one of the leading Rocky Mountain newspapers, and for thirty-five years the foe of Mormonism, and particularly its political methods, is a visitor in Honolulu, and is registered at the Alexander Young Hotel. He is accompanied by Mrs. Seifert and child. They arrived on the Moana and will remain here a couple of weeks, Mr. Seifert taking in the volcano trip next week.

Mr. Seifert occupies the dual position of manager for both the morning Tribune and the afternoon Salt Lake Telegram. The Tribune has backed the organization of the American Party, an independent political organization, whose aims were mainly to be free from the domination of the Mormon church in politics, which was alleged to be supreme in both the Republican and Democratic parties. The Tribune and the Telegram made strong fights and the American party won in many of the municipal and county battles. The Tribune in years gone by when edited by C. C. Goodwin was the strongest ally which the Gentiles had. The Tribune is largely owned in the present day by Senator Thos. Kearns.

Mr. Seifert is here on a vacation tour to rest up from a long period of hard work. He will remain here several weeks and will go direct to New York from here.

"These islands are a great surprise to me," said Mr. Seifert yesterday. "When they become known to the traveling public you will have many people here. I did not know that Honolulu was so well advanced and am greatly pleased to have decided to come here for my vacation."

WHERE ARE BEGGERS ROCKS?

LOS ANGELES, Feb. 15.—It is reported the Beggs Rocks, located in the outside channel between Santa Barbara and San Nicholas Islands, have recently sunk into the ocean, probably as the result of an earthquake, and so constitute a serious menace to navigation. Captain Keegan of the schooner Cecelia Sudden, arriving at San Pedro, reports that he came near the rocks, which are charted as showing forty feet above high tide, and found them most low tide. The hydrographic office in San Francisco has been notified.
